A Commentary on the Epistle to the Romans (Classic Reprint)

2018-01-05 Robert Verrell Foster Excerpt from A Commentary on the Epistle to the Romans This Commentary on Paul's Epistle to the Romans was written at the request of the Board of Publication whose imprint it bears. It was the desire of the board, as expressed by Dr. W. J. Darby, that I should base my work on the King James version of the epistle, and that it should little exceed a hundred thousand words, being only a handy commentary intended chiefly for those readers who, in all Churches, will ever be the majority. And yet it is hoped that the volume may not be without value to many ministers of the gospel, who may not often have opportunity to study those works which deal at greater length with questions of critical detail. Not only, however, was the previous intellectual preparation on the part of the reader for commentary study to be taken into consideration, but his purse as well; for if the book had been much larger it would also have cost much more, and hence while it might have done a greater good to the few, it would have done less to the many. Saint Paul's Epistle to the Romans
2008 Dmitri Royster Written with the average lay reader in mind, this pastoral commentary on the Epistle to the Romans offers readers a clear explanation of the Apostle Paul's influential and controversial letter. Quotations from church fathers and parallel expressions from Scripture create a methodology consistent with Orthodox tradition. By also using hymns and texts from the Orthodox liturgical services, the author supplies deeper and broader contexts for familiar biblical verses. Appropriate for personal and group biblical study and for spiritual guidance and edification, this volume also serves as a useful aid to pastors in teaching and preparation of homilies.

The Epistle to the Romans

1996-09-30 Douglas J. Moo Paul's letter to the Romans has been called "the quintessence and perfection of saving doctrine." Perhaps the most challenging and thoroughly doctrinal book of the
entire New Testament, Romans deals with many issues that are basic to Christian theology and practice. In this volume respected New Testament scholar Douglas J. Moo provides a superb study of Paul’s letter to the Roman Christians and restates the enduring message of Romans for Christians today. Based on the English text but bringing into the discussion the underlying Greek at every point, this commentary focuses both on theological meaning and on contemporary significance. Moo contributes to the continuing debate regarding Paul’s teaching on such issues as Jewish law and the relationship between Jews and Gentiles in the people of God. He also critically interacts with "the new perspective on Paul," highlights Romans's emphasis on "practical divinity," and traces the theme of gospel throughout the epistle. - Publisher.

Epistle to the Romans
1997 John Murray Careful scholarship and spiritual insight characterize this enduring commentary on Romans, generally considered to be Paul’s most profound letter. In The Epistle to the Romans John Murray offers an exposition of Romans deeply penetrating in its elucidation of the text yet accessible to scholars, pastors, and students alike. In his introduction to the commentary proper, Murray discusses the authorship, occasion, purpose, and contents of Romans and provides important background information on the church at Rome. Murray then provides a verse-by-verse exposition of
the text that takes into account key problems that have emerged in the older and newer literature. In ten appendices that close the volume Murray gives special attention to themes and scholarly debates that are essential for a full-orbed understanding of Romans -- the meaning of justification, the relation of Isaiah 53:11 to the message of Romans, Karl Barth on Romans 5, the interpretation of the "weak brother" in Romans 14, and more. This combined edition of Murray's original two-volume work, formerly published as part of the New International Commentary on the New Testament series, will hold continued value as a scholarly resource in the study of Romans for years to come.

Paul's Letter to the Romans
2004-03-02 Ben Witherington While Paul’s letter to the Romans is the most studied and commented-on document from the biblical period, the major exegetical books on Romans from the nineteenth and twentieth centuries have been overwhelmingly shaped by the Reformed tradition. Through a careful survey of work on Romans by both ancient Church Fathers and modern exegetical scholars, Ben Witherington III here argues that the interpretation of Romans since the Reformation has been far too indebted to — and at key points led astray by — Augustinian readings of the text as filtered through Luther, Calvin, and others. In this first full-scale socio-rhetorical commentary on Romans, Witherington gleans fresh insights from reading the text of Paul’s epistle in light of early Jewish theology, the historical situation of Rome in the middle of the first century A.D., and Paul’s own rhetorical concerns. Giving serious consideration to the social and rhetorical background of Romans allows readers to hear Paul on his own terms, not just through the various voices of his later interpreters. Witherington’s groundbreaking work also features a new, clear translation of the Greek text, and each section of the commentary ends with a brief discussion titled “Bridging the Horizons,” which suggests how the ancient text of Romans may speak to us today.

Paul’s Letter to the Romans
2011-05-16 Arland J. Hultgren Building on his own translation from the Greek, Hultgren walks readers through Romans verse by verse, illuminating the text with helpful comments, probing into major puzzles, and highlighting the letter’s most inspiring features. He also demonstrates the forward-looking, missional character of Paul’s epistle — written, as Hultgren suggests, to introduce
Roman Christians to the major themes of Paul's theology and to inspire in them both confidence in the soundness of his teaching and support for his planned missionary efforts in Spain.

Origen and the History of Justification

2016-02-15 Thomas P. Scheck Standard accounts of the history of interpretation of Paul's Letter to the Romans often begin with St. Augustine. As Thomas P. Scheck demonstrates, however, the Commentary on the Epistle to the Romans by Origen of Alexandria (185-254 CE) was a major work of Pauline exegesis which, by means of the Latin translation preserved in the West, had a significant influence on the Christian exegetical tradition. Scheck begins by exploring Origen's views on justification and on the intimate connection of faith and post-baptismal good works as essential to justification. He traces the enormous influence Origen's Commentary on Romans had on later theologians in the Latin West, including the ways in which theologians often appropriated Origen's exegesis in their own work. Scheck analyzes in particular the reception of Origen by Pelagius, Augustine, William of St. Thierry, Erasmus, Cornelius Jansen, the Anglican Bishop Richard Montagu, and the Catholic lay apologist John Heigham, as well as Martin Luther, Philip Melanchthon, and other Protestant Reformers who harshly attacked Origen's interpretation as fatally flawed. But as Scheck shows, theologians through the post-Reformation controversies of the sixteenth and seventeenth centuries studied and engaged Origen extensively, even if not always in agreement. An important work in patristics, biblical interpretation, and historical theology, Origen and the History of Justification establishes the formative role played by Origen's Pauline exegesis, while also contributing to our understanding of the theological issues surrounding justification in the western Christian tradition.

2012-06-14 Colin G. Kruse Paul's Letter to the Romans may well be the most influential book in Christian history. In this Romans commentary Colin Kruse shows how Paul expounds the gospel against the background of God's sovereign action as creator, judge, and redeemer of the world. Valuable "additional notes" on important theological themes and difficult texts -- such as Paul's discussion of same-sex relationships, the salvation of "all Israel," and the woman Junia, who was "well known among the apostles" -- further connect Romans to contemporary issues. Throughout his commentary Kruse expertly guides readers through the plethora of interpretations of Romans, providing a reliable exposition of this foundational epistle.

Romans
2022-03-03 Michael J. Gorman “Above all, Romans is a letter about Spirit-enabled participation and transformation in Christ and his story, and thus in the mission of God in the world.” This commentary engages the letter to the Romans as Christian scripture and highlights the Pauline themes for which Michael Gorman is best known—participation and transformation, cruciformity and new life, peace and justice, community and mission. With extensive introductions both to the apostle Paul and to the letter itself, Gorman offers background information on Paul’s first-century context before proceeding into the rich theological landscape of the biblical text. In line with Paul’s focus on Christian living, Gorman interprets Romans at a consistently practical level, highlighting the letter’s significance for Christian theology, daily life, and pastoral ministry. Questions for reflection and sidebars on important concepts make this especially useful for those preparing to preach or teach from Romans—the “epistle of life,” as Gorman calls it, for its extraordinary promise that, through faith, we might walk in newness of life with Christ.

2009-10-01 R. C. Sproul Sproul's sermons at St. Andrew's Chapel are the foundation of these never-before-published expositions on Paul's epistle to the Romans. Chrysostom had it read aloud to him
once a week. Augustine, Luther, and Wesley all came to assured faith through its impact. The Reformers saw it as the God-given key to understanding the whole of Scripture. Throughout church history the study of the book of Romans has been pivotal to understanding Christian life and doctrine. Convinced that "Paul's fullest, grandest, most comprehensive statement of the gospel" is just as vital today, R. C. Sproul delivered nearly sixty sermons on Romans from October 2005 to April 2007 at St. Andrew's Chapel, where he has pastored for more than a decade. These never-before-published, passage-by-passage expositions will enrich any study of this weighty epistle. Part of the St. Andrew's Expositional Commentaries series.

1933 Karl Barth Named one of Church Times's Best Christian Books This volume provides a much-needed English translation of the sixth edition of what is considered the fundamental text for fully understanding Barthianism. Barth—who remains a powerful influence on European and American theology—argues that the modern Christian preacher and theologian face the same basic problems that confronted Paul. Assessing the whole Protestant argument in relation to modern attitudes and problems, he focuses on topics such as Biblical exegesis; the interrelationship between theology, the Church, and religious experience; the relevance of the truth of the Bible to culture; and what preachers should preach.

Since different people have different ideas of what an adventure is, seek out the one that you want and start from there. You may want to have a jungle adventure or an Ocean adventure and you would never know what to choose since you have no idea yourself what you want. Knowing the kind of adventure you can handle not only saves you frustration it also saves you time, and energy.

Second, map out different locations for your possible adventure. Having different locations to consider also allows you have better logistics and better grasp of the place. Its like knowing where to get essentials of the trip, where to go for a refill, where theres a doctor, whereas the bar etc...like an old adage that goes knowing the field of battle is winning half the battle.

Third, work within a budget and a schedule. All good trips and successful vacations have a working budget and a well thought and well planned itinerary. Knowing your spending limit is also a way of limiting the time you spend on looking around and being idle. Planning ahead is like building a family; it makes it easier for a person to know the direction their heading. Also, planning ahead is also one means of ensuring that the trip will be something to remember until the next getaway is scheduled.

A Commentary On The Epistle To The Romans
After reading the description of a child you can request more information. Adoption Photo listing started in 1994 and over 8,000 children have appeared on it. The Adoption Photo list receives more than two million hits per month. Adoption photo listing is such a powerful way to motivate people even remotely interested in adopting. Many people have a statistic in the back of their minds, knowing that there are millions of children around the world without a home. But thats just it, its just a statistic. With adoption photo listing it is no longer just a statistic it is reality. Adoption photo listing places a face where it used to be just a number. Not only does it become a picture, but adoption photo listing describes the child. It gives the Childs age, bithdate, state of residence, and the Childs likes and dislikes.

Adoption photo listing is not only beneficial for the child wanting to be adopted, but also beneficial for the adoptive parents. This way the child gets his or her face out there for more to see. Also the adoptive parents have a chance to see pictures and learn about the children. What the children look like, what they like to do, where they come from and sometimes an update on how the child is doing emotionally. This give the adoptive parents more to go on than just a picture or even a number.

Adoption photo listing is not just of children for adoption, but also of families or couples that want to adopt. These adoptive parents have been thoroughly screened and have completed all of the prescreening assessments. Many of them have fertility problems, making it near impossible to have children on their own. These adoption photo listings give information such as the ages of the adoptive parents, when they where married, what their hobbies are and the information about any of the children they have whether they are biological or adopted. They also explain how much they would like to adopt and raise a child, and how wonderful it would be just to be considered for adopting.

Get Quotes Fast for Air Ambulance Transportation Services
Air ambulance transportation is not a common service that everyone uses on a daily basis. This type of flight is not one that you can click on a travel website and get the cheapest fare available from city to city, or is it?

In non-emergency situations, patients and their family have time to prepare for special circumstances that may arise during medical treatment. If travel by air is necessary, but standard commercial flights are not available due to specific medical restrictions, the patient may require the specialized care from an air ambulance service. Customers can't logon to well-known travel sites for price quotes and information, but options are available. By contacting air ambulance service companies, you will be able to quickly receive a price quote. Some air ambulance services will require potential clients to contact them by phone while others respond to email inquiries.

Many company websites for reputable air ambulance service will have a link to get an immediate quote. This option is great for families who want to privately compare prices and learn about each organization before bothering the air ambulance service with the details.

_Discovery A Commentary On The Epistle To The Romans_: Focusing on the problems of the customers and giving a solution for them, is what a customer demands. A customer does not buy a product; he buys benefits in the form of a product. The real value of the product should be realized and a clear picture of it should be presented to the customer so he will be able to relate with the product. If the advertisement doesn't specify the solution it can provide, the customers will never know of it. So focusing on the customers problem is what some ads miss. The last thing missing in most of the advertisement is motivation for the customers. If the advertiser has designed the advertisement and the customer had read the advertisement, all efforts and money invested will be wasted if he doesn't get up and do something about it. It shouldn't be assumed that the customer knows what to do; instead, the advertisement should influence the mind of the customer and should tell him what to do. Call of action is the final job of the advertisement. It should call for information, or visiting the store or even visiting the online store. The message should sound confident and clear.

**Different types of Television Commercials**

Since the time the first ever commercial to be aired on television of Bulova Watch Company in July 1, 1941 many categories of advertisements have been formed. The advertisements have become a part and parcel of daily life and are playing a significant role in decision making of the consumers. Such has become the power of advertisement that even a politician cannot assure his success in election campaign in if he hasn’t advertised on television. The different categories of television advertising are political advertising, promotional advertising, infomercials, television commercial donut, promo, and sponsorship.

Panama City is situated in what they dub as Florida’s panhandle, the whole 27 miles of sugary white sand that cozy up to the Gulf of Mexico, exuding warm breezes off the waters edge and breath-taking surf for the hardcore water sports enthusiasts.

Transformation A Commentary On The Epistle To The Romans
Companies can receive excellent discounts on air ambulance service coverage costs for groups of employees. The cost can be covered exclusively by the employer, or paid partially by the employer and shared with the employee.
Air ambulance service coverage plans are not only affordable, but a fabulous benefit for business travelers. Most coverage plans require that the plan only be utilized when the patient is 150 miles away from home. If the company has numerous employees that travel from state to state or around the globe on business, then this just may be a benefit that should be added to the companys roster.
A medical emergency cant be planned. No one heads off on a business trip and expects to become ill or injured, but in reality, this may be the case. Should such a circumstance arise while an employee is away on business, it is important that they be able to return home as quickly as possible.

Rating : A Commentary On The Epistle To The Romans -Self motivation is extremely necessary in loosing weight. Because obesity is more a family problem and not an individual problem, the whole family can switch to eating healthy food and exercising regularly. This can make the weight control program a success. Parents can play a major role by boosting the self esteem of their children by concentrating on their strengths and encouraging them, instead of targeting the weight problem. The whole family should eat meals together, instead of eating individually while watching a movie. This helps all the members to focus on the food and the quantity being eaten. If the teenager isn’t getting support from his family members, he/she can join support groups which can help towards the goals.

After the adolescent has lost weight, it is very important that he/she maintains it. In majority of the cases, people shift back to their old eating habits after loosing weight. That is the reason why obesity is more of a lifetime issue. So the main aim of any weight loss program must be make the adolescent like healthy food. He/she must also be made to exercise regularly, irrespective of the weight.

**Can Family Travel With the Patient in an Air Ambulance?**

When a loved one is dealing with serious medical conditions, everyone wants to help and be supportive. The family of the patient wants to be involved and informed about what is going on. Just like the doctors and medical staff, a patient’s loving family wants what is best for the patient. When the patient must be transported, many issues of concern arise. If a loved one must fly in an air ambulance, can someone from the family come along for support? The goal of transporting the patient is often to reach qualified healthcare quickly and conveniently. This is especially true for many patients whose lives are dependent on the speed in which they get to the appropriate hospital and treatment. In some cases, the patient will fly in an air ambulance just a short distance to a local hospital, in other cases, a patient may travel across the globe for medical services.

The best way to ensure that the family is involved is by discussing the situation with your loved one as soon as possible. Letting the patient know that the family is there to support them will help them feel less alone and more in control.

**Concepts A Commentary On The Epistle To The Romans**

Dog adoption generally refers to the taking over of ownership and responsibility of a dog, which the last owner gave up. You can find dog adoptions through a shelter, rescue group, or through a non-for-profit organization online. Dogs end up in shelters for many reasons, such as its owner dies, someone has to move or their financial situation changes, a dog is lost and cannot find its way home, a person develops health problems and can no longer care for the dog, or develops allergies. The Humane Society of the United States estimates that three to four million dogs and cats are euthanized every year, due to a lack of homes.

The adoption process for dogs is fairly simple and can take anywhere from thirty minutes to two days. To adopt a dog you will need to fill out an application and a questionnaire. If both are accepted the shelter will call any landlords that you might have, to make sure you can have the dog where you live. If this checks out then in some cases, someone will come out to your home and make sure you have an adequate home and yard for the dog to live in. Once this is complete you will be asked to pay an adoption fee, ranging from $50.00 to $350.00. Then the dog will be spayed or neutered before going home. There is no exception to this rule, it is a must. Two to three days after surgery you will be able to pick your new pet up and take it home.

When adopting a dog you need to make sure that you pick a dog that matches your living situation and your needs. There is a big difference in dog personalities, so depending on what the dog will be primarily for is depending on what bread you will want. You should also remember that not all dog breeds are good with children and some breeds are not good with other animals. Where as allot can be told by breeds or what breads make up the mix, each dog will have its own personality. The temperament varies, and is unique to each individual dog. Most places that do dog adoptions will allow you a visitation period, some will even require it. This is a good idea and should be taken advantage of. Spending time with a potential dog will tell you volumes about their individual unique personality. This can also clue you in on weather or not they will be good with children and other animals.

Third, acupuncture is used to treat pain. This is only a half truth because this holistic technique has been proven to do other things such as stop a person’s addiction, lose weight and prevent certain illnesses.

Fourth, there are some who think that Asians are the only ones that can practice acupuncture. Since 1982, there are already 50 schools all across the country that teach students about this technique and become licensed acupuncturists.

This means that anyone who has the desire to learn about this ancient practice can do so and help treat patients. Just to give you an idea, there are at least 3,000 acupuncturists now working in the US.
Acupuncture for Effective Weight Loss

In a generation when physical fitness is given topmost attention, people are always on the lookout for the newest and most effective means for weight loss. Acupuncture, the method of inserting thin, filiform needles on certain points in an individual’s body, has been found to be one effectual method for losing weight. Not many people may find the idea of being inserted by needles quite comforting in their quest for weight control. However, this ancient Chinese alternative treatment seeks to deliver a control mechanism, enabling the patient to manage hunger cravings more successfully in the long run.

A good after school activity will provide lots of opportunities for the young to increase their level of understanding of complex concepts. This is true of recreational activities too. Learning to pitch a ball, or dance to a tune - regardless of the activity involved, the child should be encouraged to grapple with and conquer new concepts. This not only keeps boredom at bay by challenging the child, but also builds up his self-confidence. Development of academic, personal and social skills is one of the prime aims of an after school activity. As the skills develop, the childs self-esteem also increases.

After school activities are all about boosting a childs sense of competence. Good and effective after school activities promotes the resilience of youth and encourages them to grow stronger, be it mentally, emotionally or physically.

Safety is one of the first requirements of an after school activity. The staff should be qualified, adequate and alert. Never put your child in a program where safety is a matter of accident instead of a matter of priority. The staff should be friendly and should have a positive relationship with the child. Therefore, the program should have professional and trained staff that loves to interact with children. The program should maintain a cooperative and supportive attitude and a structured environment. Participation and collaboration as opposed to competition and antagonism must be encouraged.

Obsession A Commentary On The Epistle To The Romans -How to Look For a Good Acupuncture School

Since 1982, acupuncture has found its way to the US. There are currently 50 schools that teach it and 3,000 licensed practitioners all over the country. You should now that the 50 schools mentioned are all accredited by the National Commission for Acupuncture and Oriental Medicine. Most of these schools can be found online so you can give them a call and ask certain questions about the school.  Seventy four percent of females above fourteen years and sixty percent of females below fifteen years have reported to have involuntary sex. Fifty percent of the adolescent pregnancies are within the time period of six months after the initial sexual intercourse. More than nine hundred thousand teenagers are reported to have become pregnant every year in the United States. Fifty one percent of the adolescent pregnancies result in live birth, thirty five percent result in induced abortion and fourteen percent result in stillbirths or
miscarriages. Four out of ten adolescent females get pregnant, before they turn twenty, at least once. Twenty five percent of adolescent deliveries aren’t the mother’s first child. When a teenager gives birth to her first child, she increases the risk of begetting another child. One third of the adolescent parents are themselves result of adolescent pregnancies. There are many reasons why adolescents choose to become sexually active at an early stage in life. The reasons can be early pubertal development, poverty, sexual abuse in childhood, lack of parent’s attention, lack of career goals, family and cultural patterns of early sex, substance abuse, dropping out from school and poor school performance. Factors which discourage an adolescent to become sexually active are stable family environment, parental supervision, good family income, regular prayers, connectedness with parents and living with complete family and both the parents. The factors which are responsible for the consistent use of contraceptive among adolescents are academic success, anticipation for successful future, and involvement in a stable relationship. There are many medical risks associated with adolescent pregnancies. Adolescents who are less than seventeen years are at a greater risk of developing medical complications, when compared to adult females. The risk is even more in teenagers below seventeen. The weight of the child, given birth by an adolescent, is very low in these pregnancies. It is usually below 2.5 kilogram. The rate of neonatal birth is also three times greater in adolescents, when compared to adults. Other problems caused by adolescent pregnancies are prematurity of the child, birth of underweight child, poor maternal weight gain, poor nutritional status, anemia, STDs and hypertension induced due to pregnancy.

Challenge A Commentary On The Epistle To The Romans - In TCM, practitioners adhere to the concept of Qi, or energy flow, and the meridians in which they travel. They use longer needles and insert them deeper in order to reach the acupuncture points. Modern science has found little evidence to prove the existence of these energy channels, but this is the technique that has been used effectively for thousands of years. In medical acupuncture, the practitioners are graduates of western medical schools. Their application of needles is not based on the traditional acupuncture points, but on anatomic data. These acupuncturists use shorter needles and the insertions are shallower. They also tend to use fewer needles and leave them inserted for shorter periods of time. Adherents to TCM feel this is a watered-down version of the real thing. Nevertheless, many patients have felt relief of symptoms through this method.

Conditions for Puncture Application
There is a broad and extensive list of ailments which can be treated with acupuncture. The conditions run the gamut from asthma to constipation, anxiety to weight loss. Most TCM practitioners believe that any health condition results from an imbalance in Qi flow, therefore amenable to needle therapy. Western acupuncturists tend to have a more limited list of indications, the most common of which is undoubtedly control of pain.

Discovery A Commentary On The Epistle To The Romans
Teens get anemia as they grow rapidly the amount of iron intake may not be enough to keep up with the pace of the growth as it needs more nutrients in this process. In the case of girls they need more iron after puberty and are at risk due to heavy blood loss during menstrual periods. In some cases pregnancies also leads to anemia. Also, teens who diet excessively to lose weight may also be at risk of having iron deficiency. Meat eaters especially red meat eaters are at less risk compared to vegetarians as meat has rich iron in it.

Asthma in Adolescents
Most of the teenagers who have asthma are also allergic to many things. The asthma can get severe even if the people with asthma are exposed to allergens of low grade. Allergies play an important role in asthma cased which are undiagnosed. Other factors that also trigger
childhood asthma include upper respiratory infections like colds, second hand smoke, and certain climate conditions like cold air and due to emotional physical expressions like laughing, crying or yelling. However, it is not the end of the road for asthmatics as they can live active and healthy if they manage asthma properly by avoiding asthma triggers, regular intake of prescribed medications, being alert of the warnings and be aware of the ways to deal with an asthma attack.
